Membership

We are pleased to welcome to the Acton Garden Club as a new member **Monica Teng**.

Monica tells us she's currently a stay at home mom after working in online media sales for 15 years in Manhattan. She has learned a lot about gardening while owning her first home here, but needs to learn a lot more. And she would love to know more people in surrounding towns.

Monica and her husband John live in Concord. She is interested in joining the group working in the Herb Garden at the Acton Arboretum.

Monica would like to learning more about the Hort Study Group, Floral Design Study Group and Gardening with Young People. One of her many interests is knitting. Put her together with our many quilters and you have quite a creation.

Please add her info to page 86 in your Yearbook.
